Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative clarified the differences between the invention and the prior art. It was agreed to amend claims 1 and 11 to clarify the invention, such as changing "loops" to "traces" in claim 1, and adding that a loop is formed between the first selectable trace and the second selectable trace. It was also agreed to clarify claim 11 that the first and second traces are forming a loop and that the third and fourth traces are forming a loop. Applicant's representative also clarified the issues raised by the examiner regarding the 112, 1st rejection of claim 3. The examiner agreed to withdraw the rejection. Claim 8 was argued by the applicant's representative, however, the examiners did not agree with the argument and the rejection of claim 8 was maintained.
